CONTEMPORARY STYLE AND FANTASTIC FINISHES AT SPACE&INTERIORS 2017

🕒 MARCH 30, 2017 📍 ARCHELLO

Coming soon, [space&interiors](#) is an event entirely devoted to fine architectural finishes. Taking place [April 4-8 in Milan](#), we are looking forward to discovering the latest 'Made in Italy' trends. Top manufacturers from the industry will be present and have shared with us a preview of what you can expect to see – from the latest wallpaper designs to floor tiles to doors and fittings.

We start with the Collages wallpaper collection, produced by Omexo and distributed by Effeitalia. Handmade collages of Japanese paper mixed with banana fibres are the eye-catchers in this new wallcovering. Small pieces of paper are glued on a non-woven backing by skilled craftsmen, either to form a stripe, or a random mosaic, enhanced here and there with a glimpse of metallic foil. The visual result is absolutely stunning.

High and special performance doors are another key area at space&interiors. Jansen will present their systems Jansen Janisol and Jansen Economy for doors. Strikingly modern in appearance, this new system allows fully glazed windows to achieve impressively high strength values.

Further to this, Vighi Security Doors will launch their Ventesimo secolo Collection. Lending a unique aesthetic finish to security doors, their design process involves architects, artists and interior designers.

Vighi Security Doors bring colour, geometry and high aesthetic finishes

For more of the latest designs in architectural finishings, be sure to check back regularly as we bring you live coverage of this showcase event.
