

LIGHTDOOR

INNOVATION AND DESIGN

LIGHTDOOR is the model that "lights up" with ultra-low power LEDs. Turning on and off can be activated either manually or automatically. It is set up for operation with light sensors and proximity sensors (non included), as soon as someone approaches the system. If the approaching person is the rightful owner, it lights up, easing the door opening; if, instead, it is a burglar, an unexpected illumination around the door will function as a deterrent.

The model is proposed with a special corten steel effect panel with a great aesthetic outcome. LIGHTDOOR is also offered with satin and polished stainless steel covering panels and with painted galvanized steel ones. All covering panels are capable of withstanding different weather conditions, such as humidity, rain or high salt concentration in case of proximity to the sea.

The security cylinder of LIGHTDOOR is protected against vandalism - a handle with a magnetic encoded system slides allowing key insertion.

LIGHTDOOR

marking	anti burglary resistance	acoustic insulation	wind resistance	air permeability	thermal transmittance	water permeability
	CLASS 3	41 dB	C 5	CLASS 4	UD 1.8	NPD

CONFIGURATIONS

We can create oversized models

this model does not provide the spyhole

- | | |
|---|--|
| 1 N°2 hinges, adjustable horizontally, vertically and in depth | 8 Locking System
H handle 1050 mm |
| 2 N°5 hinge-bolts | 9 Protection lock plate |
| 3 Reinforcing omega | 10 N°4 movable deadbolts |
| 4 Internal sheet | 11 Sicurblock |
| 5 Insulation materials | |
| 6 Mobile drop sill | |
| 7 Perimetric rubber seal | |

Anti - burglary resistance test according to EN 1627:2011 norm - CLASS 3
Value also applicable on models with fanlight/sidelight

external sheet	10/10 bent on all 4 sides
internal sheet	8/10 bent on 2 sides
reinforcing omega	n. 3
insulation materials	included
power supply	by the mains with transformer (for LED lighting)
locking system	Vighi with antiburglary european cylinder, operating in continuous motion
cylinder	Security cylinder with key to key system, with 1 temporary red key (it cannot be duplicated) and 3 blue keys with protected profile sealed in a dedicated box. CODE CARD-ownership one that guarantees against unauthorized duplication of keys.
movable deadbolts	n. 4
"sicurblock"	safety catch
lock protection	50/10 plate
hinges	n. 2 - adjustable horizontally, vertically and in depth
hinge-bolts	n. 5
perimetric rubber seal	on the frame and on the leaf
"securlock"	anti-drill and anti-wrench hardened steel defender for cylinder protection
spyhole	excluded
mobile drop sill	with acoustic insulation seal
"no air"	system against air passage
