

## MATIK vip

### ELECTRONIC RELIABILITY

MATIK Vip, MATIK Premium and MATIK - are three models with an electronic closing and opening system.

They are powered by batteries or the mains. Electronic technology is user friendly. The mechanical key allows door opening in case of power cut.

The electronic doors in the MATIK range combine security and functionality.

They provide the same security guarantee as the mechanical models but in addition offering the functional advantages of electronic technology. A wide range of handles and covering panels, which are suitable for both - design, contemporary and classical environments - complete the range.

**MATIK vip  
single leaf doors,  
with windows, sidelight  
and fanlight as well, are  
tested Class 4  
anti-burglary resistant  
according  
to EN 1627:2011 norm.**

On the external side a finger print biometric reader and a transponder reading system, a push button on the inner side for enabling and disabling automatic opening and for programming.

external side (standard version)

color video camera for external connections (extra)

### Electronics accessories (extra)

color video camera for external connections to video (to be connected by the mains), with transformer, chrome color available

additional transponder system (mechanical key excluded)

MATIK vip

marking	anti burglary resistance	acoustic insulation	wind resistance	air permeability	thermal transmittance	water permeability
	<b>CLASS 4</b>	<b>41 dB</b>	<b>C 5</b>	<b>CLASS 4</b>	<b>UD 1.8</b>	<b>NPD</b>

- 1** N°2 hinges, adjustable horizontally, vertically and in depth
- 2** N°5 hinge-bolts
- 3** Reinforcing omega
- 4** Internal sheet
- 5** Insulation materials
- 6** Mobile drop sill
- 7** Perimetric rubber seal
- 8** Locking System **H handle 1050 mm**
- 9** Double lock protection plate
- 10** N°7 movable deadbolts
- 11** Sicurblock

CONFIGURATIONS

We can create arch or oversized models

CONFIGURATIONS

We can create arch or oversized models

AVAILABLE ALSO IN DOUBLE LEAF VERSION

**Anti - burglary resistance test according to EN 1627:2011 norm - CLASS 4**  
**Value also applicable on models with windows, or with fanlight/sidelight**

external sheet	10/10 bent on all 4 sides
internal sheet	8/10 bent on 2 sides
reinforcing omega	n. 3
insulation materials	included
power supply	by the mains including transformer
locking system	with motorized motion
cylinder	Security cylinder with key to key system, with 1 temporary red key (it cannot be duplicated) and 3 transponder contact reading system containing mechanical keys for emergency opening. CODE CARD-ownership one that guarantees against unauthorized duplication of keys.
electronics accessories	external side: finger print biometric reader (available in polished brass - satin chrome); transponder reading contact; connection to remote control internal side: push button for enabling and disabling automatic opening and for programming
movable deadbolts	n. 7
"sicurblock"	safety catch
lock protection	double: 20/10 steel + 20/10 manganese
hinges	n. 2 - adjustable horizontally, vertically and in depth
hinge-bolts	n. 5
perimetric rubber seal	on the frame and on the leaf
"securlock"	anti-drill and anti-wrench hardened steel defender for cylinder protection
spyhole	included
mobile drop sill	with acoustic insulation seal
"no air"	system against air passage
